

IBS PAPER PERFORMANCE GROUP

iTABLE™

- Forming Table Optimizations

Transphase

- Steam Boxes
- Super Steam Vac

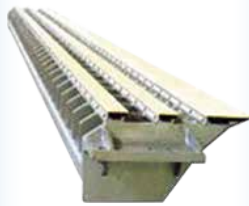

PMS

Papiermaschinen-Systemtechnik

- Ruby Nozzles
- SuperTrim

papertech

IBS PAPER PERFORMANCE GROUP

iTable and Wet-End Optimizations that reduce your cost per ton by saving energy, saving fibre, saving chemicals, increasing production and increasing quality.

- Ceramic Elements
- Poly Elements
- EVA Vacuum Control Valves
- Stainless Steel Structures

James Ross

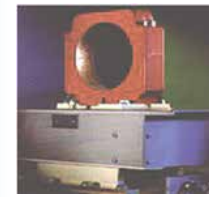

FABRI CARE

- Continuous Cleaner

JAMES ROSS, the leader in high-performance showering and doctoring systems, including specialized equipment for every application.

Plus:

- Linear Brush Showers
- FabriCare Cleaners
- Shower Oscillation
- Double Doctors
- Doctor Oscillation
- Creping Doctors
- Doctor Blades
- Control technology
- Shower Nozzles

- Felt Tensioners
- Wire Tensioners
- Automatic Controls
- Tension Display Units
- Pneumatic Guides
- Pneumatic Sensors
- Electrical Guides

TAPE TURN-UP SYSTEMS

Manual and Semi-Auto Systems. Repulpable Paper Tape and Adhesive Tape.

papertech

TotalVision™
WEBVISION • WebInspection

New WebLED Lighting
New Digital Cameras
MUV-e Cart System
Integrated Event Capturing & Web Inspection Systems

- Permanent and Portable Systems
- Typically reduces unknown breaks by 50-75%
- Typically increases machine efficiency by 2-5%
- Typically payback is less than 6 months

NASH
by Gardner Denver

Nash, the world-class supplier of Liquid Ring Vacuum Pumps and Compressors, Ejectors and Engineered Systems.

- Vacuum System Optimization
- New Pumps and Pump Repairs
- Pump Exchange Program
- On-site Inspections
- OEM Parts
- Warranty

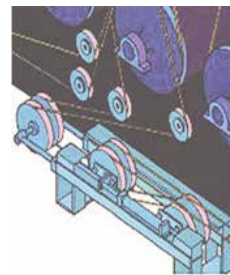

Teufelberger
Together in Motion

We reduce your total rope costs including rope-related machine downtime.

- Longest lifetime in all machine conditions
- Excellent Threading
- Lowest stretch
- Excellent colour retention and abrasion resistance
- Easy Quick-splice
- Best paper-machine uptime performance

Custom Threading & **GLENCO**

We deliver - tail threading effectiveness and machine uptime

- Trouble shooting
- Rope system audits
- Plan of action recommendations
- Implementation assistance
- System components

BUSCHMAN
CORPORATION

Buschman has a complete line of metering rods and holders for all OEM machines such as Beloit, Valmet, Voith and Jagenberg. We also manufacture rods and holders for many other machines. Just contact us to design a metering rod solution for your application.

AFT AIKAWA GROUP

- AFT Cylinders and Rotors
- Finebar Refiner Plates
- Aikawa Stock Preparation Products
- POM

AFT SCREENING

State of the art pulp screening components including high tolerance cylinders and energy saving rotors.

Finebar®

FINEBAR REFINER PLATES

Offering customized low consistency refining solutions to improve your fibre properties.

Aikawa Stock Preparation Products

The leader in global stock preparation system equipment with the engineering and application expertise to provide new systems or optimize existing systems.

POM

Compact and Efficient Approach Flow Systems.

- POM Fibre Recovery
- Engineering Services
